

Maksym Sovyk | Front-end Developer

ms3713287@gmail.com | Canada | +1 437 263 0100 | [LinkedIn](#) | [Portfolio](#)

PROFILE SUMMARY

- o Skilled Software Developer with a background in Web Development and over 3 years of learning and applying experience in both front-end and back-end development.
- o Skilled Software Developer specializing in full-stack web development with extensive experience in React.js and modern JavaScript frameworks and MySQL
- o Proficient in responsive design and frontend development using HTML5, CSS3, and various CSS frameworks including Tailwind CSS and Bootstrap
- o Experienced in building scalable applications with efficient state management and API integration, consistently delivering high-performance solutions
- o Demonstrated success in freelance projects with proven track record of improving client satisfaction and application performance
- o Strong foundation in both frontend and backend development with practical experience in Node.js, C#, Java, and
- o Strong communication skills, including collaborating with clients, delivering products effectively, and explaining product functionalities and features to end-users for seamless adoption and support.

PROFESSIONAL EXPERIENCE

Freelance Software Developer, Independent

September 2023 – 2025

- o Built scalable frontend architectures using React.js with Vite, implementing efficient state management with Redux and Context API
- o Created custom reusable React components and hooks, reducing development time by 40% and improving code maintainability
- o Integrated RESTful APIs using Node.js and Express.js, enabling seamless data flow between frontend and backend services
- o Implemented responsive designs using Tailwind CSS and SCSS, ensuring optimal user experience across all devices
- o Enhanced application performance through code splitting and lazy loading, achieving 20-30% improvement in load times
- o Developed and integrated authentication systems using JWT tokens and secure backend practices
- o Collaborated with clients to gather requirements and deliver solutions that increased satisfaction rates by 25-40%

CORE COMPETENCIES

- | | | |
|-------------------------------|--------------------------|--------------------|
| ❖ Responsive Web Design | ❖ Version Control | ❖ State Management |
| ❖ Debugging & Problem Solving | ❖ Component Architecture | ❖ Web Services |

TECHNICAL & SOFT SKILLS

Languages/Techniques: HTML5, CSS3 (SCSS, Tailwind CSS, Bootstrap), JavaScript (ES6+), React.js, Node.js, C#, Java, ASP.NET, MVC

Frameworks/Software Tools: Redux, Vite, React Router, Git, GitHub, REST APIs, MS SQL Server, MySQL, MongoDB

Design Tools: Photoshop, Illustrator, Figma

Soft Skills: Communication, Logical Thinking, Problem Solving, Collaboration, Adaptability, Project Delivery

Events & COURSES

- | | |
|---------------------------------------------------------|------------------------------|
| o The Ultimate React Course 2024: React, Next.js, Redux | o React Full Course (Udemy) |
| o Winner of the Conestoga College Hackathon 2025 | o Learn Tailwind CSS (Udemy) |

EDUCATION

Advanced Diploma in IT Innovation & Design, Conestoga, Waterloo, Ontario

September 2023 - now

Current GPA: 3.80

ACADEMIC & INTERNSHIP PROJECTS

T-Shirt Webstore (Full-Stack E-commerce)

- o Tools: React.js, Node.js, Express.js, Vite, React Router, Tailwind CSS, MySQL
- o Developed a complete e-commerce solution for t-shirt sales with custom-built REST API
- o Implemented responsive design with modern UI/UX using Tailwind CSS and SCSS
- o Created secure backend services for product management and order processing
- o Built custom API endpoints for inventory management and user authentication
- o Utilized React Router for seamless client-side navigation and enhanced user experience

Student Portal (Academic Management System)

- o Tools: React.js, Node.js, Express.js, MongoDB
- o Implemented CRUD operations for student records, course management, and grade tracking
- o Created responsive dashboard interface with real-time data updates and search functionality
- o Built RESTful API endpoints for efficient data handling and server-side validation

Weather Dashboard Application

- o Tools: React.js, Vite, Tailwind CSS, shadcn/ui, React Router, React Query
- o Integrated OpenWeather API to fetch and display real-time weather data
- o Created interactive weather graphs and charts using Recharts library
- o Implemented responsive design with modern UI components from shadcn/ui
- o Built location-based weather search with autocomplete functionality
